## TIMING AND FREQUENCY OF APPLICATION

**MICRO<sup>™</sup>** can be applied alone or used as a foliar carrier for nutrient sprays, fungicides, insecticides and plant growth regulators. Apply foliar sprays with sufficient water to ensure uniform coverage without running off leaf surfaces. These recommendations and methods of application are basic guidelines intended to simplify product usage and maximize results. There may be specific conditions which would require adjustments.

This fertilizer is intended as a supplement to a regular fertilization program and will not, by itself, provide all the nutrients normally required by agricultural crops.
